

SETTING UP TEXTILE INDUSTRY-JOINT VENTURE IN PAKISTAN

Bahawalpur is an important trade and commercial centre of Pakistan. It produces about 34% of the highest quality of cotton grown in Pakistan. Hundreds of cotton ginning factories are working in Bahawalpur region. The Bahawalpur Chamber of Commerce and Industry is keen for industrial development and progress of the region. Since textiles are Pakistan's major export sector, the Board of Investment in Pakistan has developed a focus to promote and mobilize local and foreign investment particularly in the manufacturing sector for textiles.

The incentives available to foreign investors can be downloaded from web site <http://www.pakboi.gov.pk>. Some value added locational advantages of Bahawalpur are: -
